## LG Amazon microsite

I built a micro site for LG on the amazon website. Using JS for popups with video and various content.  
HTML CSS JS

## EXTENDED SIZES

At New Look Men we always strive to be accessible for all. So no matter what shape, fit or size you prefer, we want you to find it here.

Whether it's developing the best products or delivering the highest quality and fit at the most competitive price, we aim to be the best in class.

That's why we're really excited to introduce our Extended Sizing, ranging from XXS to XXXL, we're making sure that all men can build a wardrobe that works for them.

### SIZES EXPLAINED

OUTERWEAR

XXS

XS

XXL

XXXL

TOPS

XXL

XXXL

### New Look Page

I implemented a new responsive and scrollable page for extended sizes on the New Look website.  
HTML CSS JS

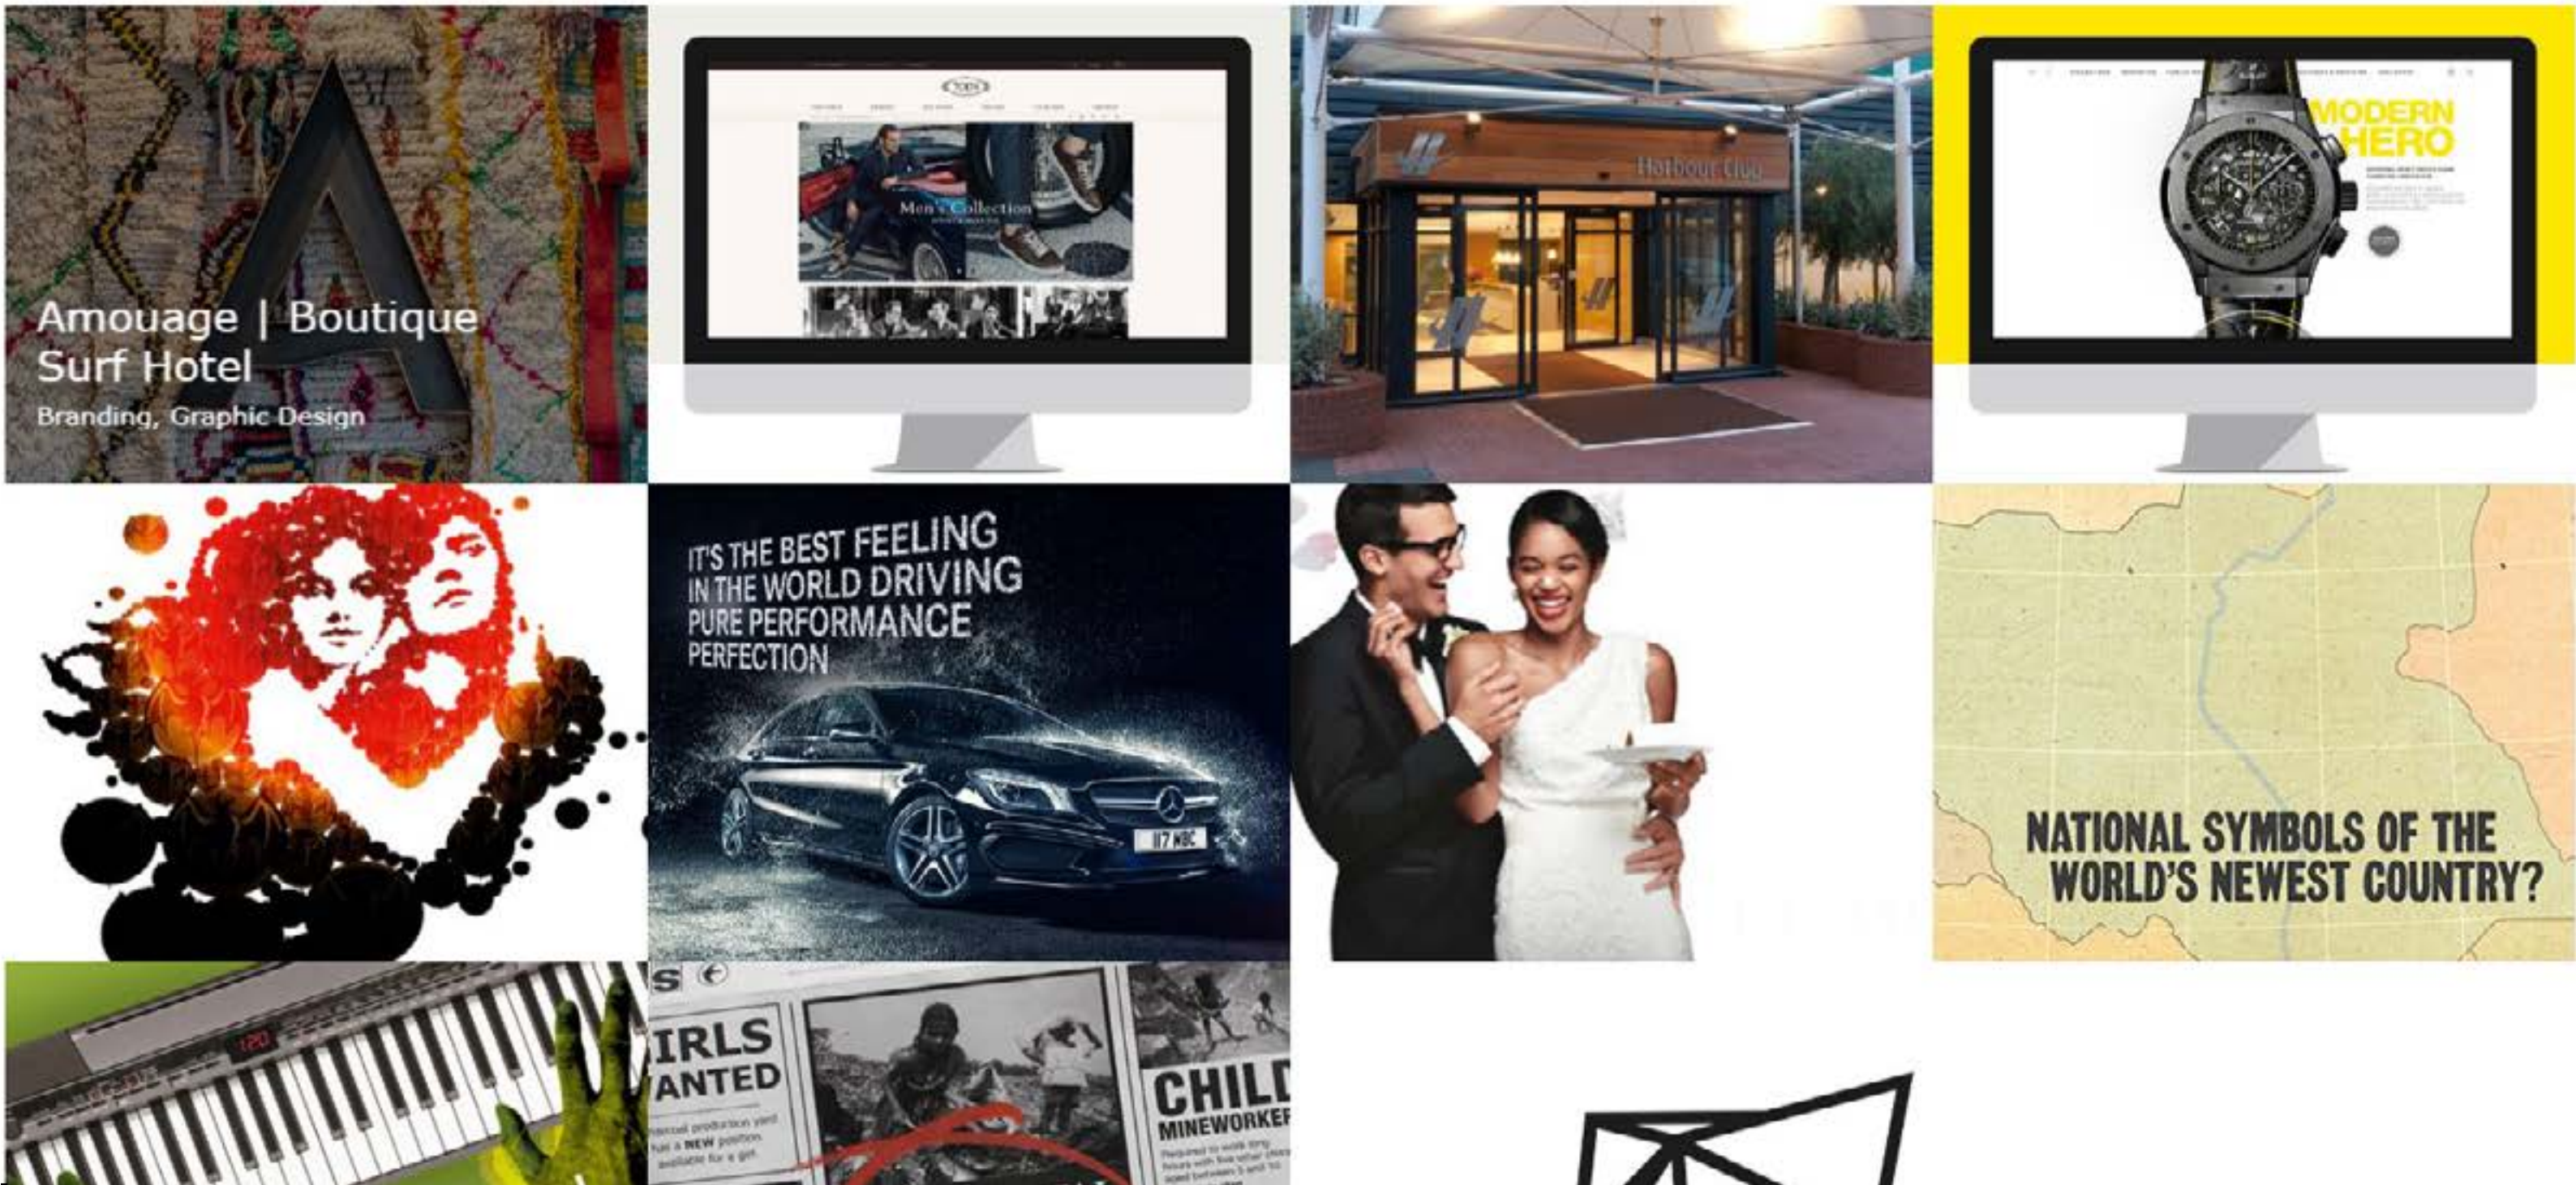

## **Nuuuuugs.com**

Nuuuuugs is a food truck that some of my friends started. I had a broad brief and somewhat free reign so we decided to make it all about full screen SVG with asynchronous loading and animations. HTML CSS SVG JS Google Maps API

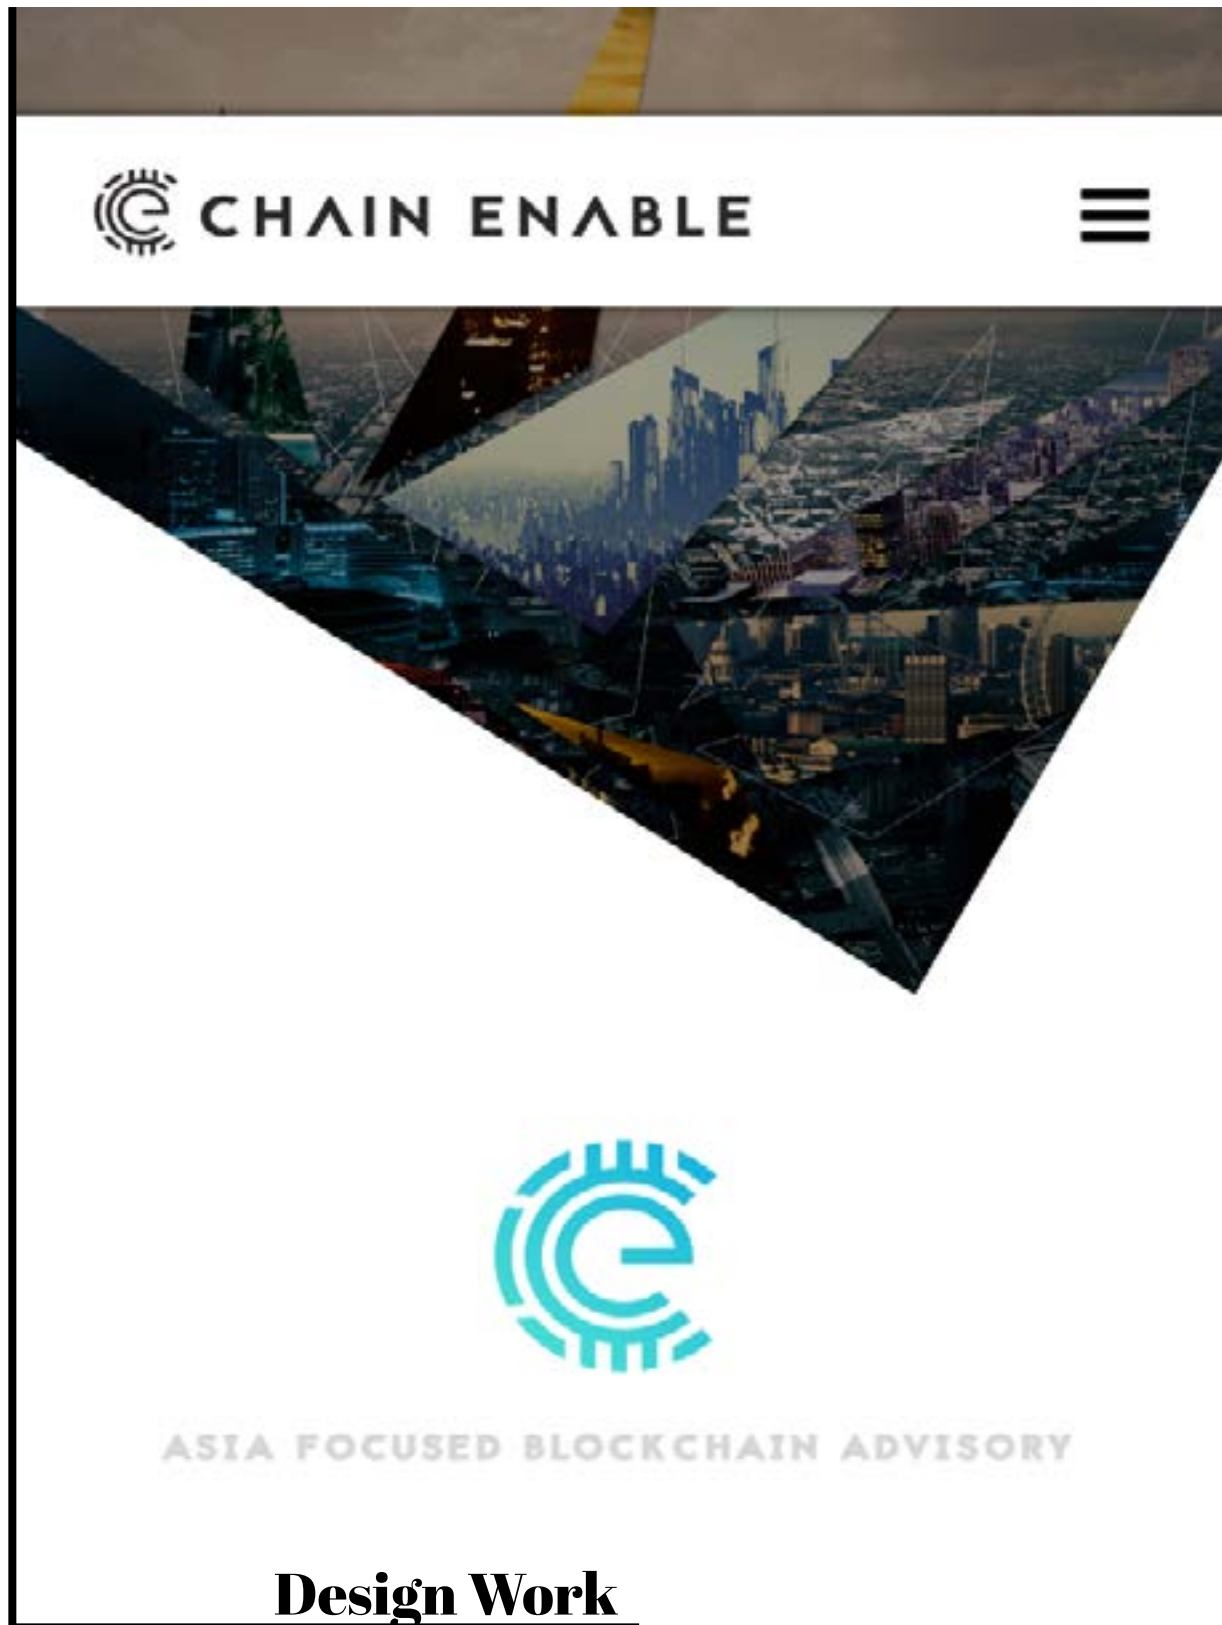

## Michael Gilbert Website

The client wanted a basic CMS website with responsive images. I made a custom wordpress theme and taught him how to update it online. HTML CSS PHP Bootstrap

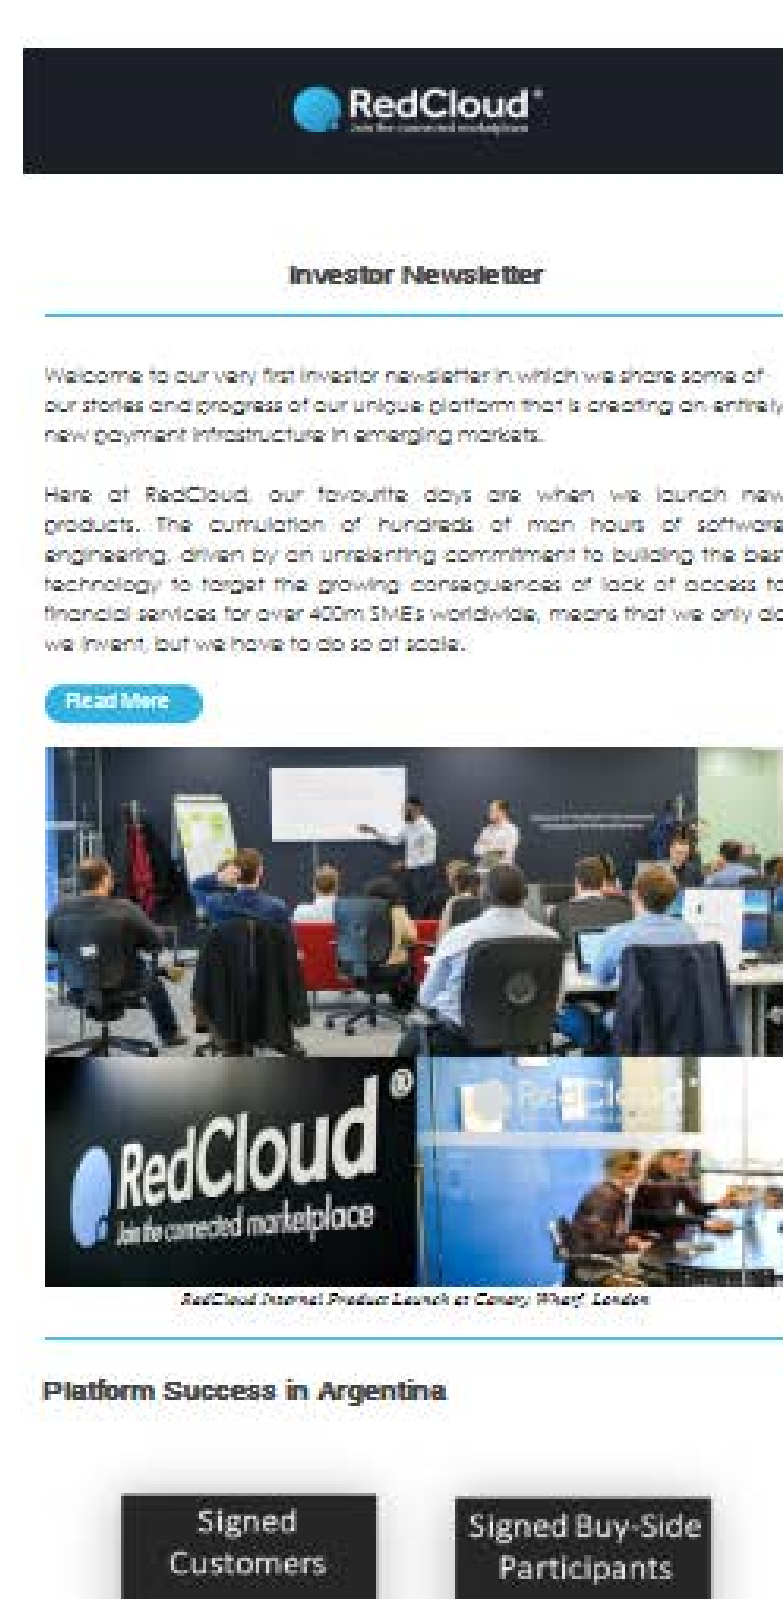

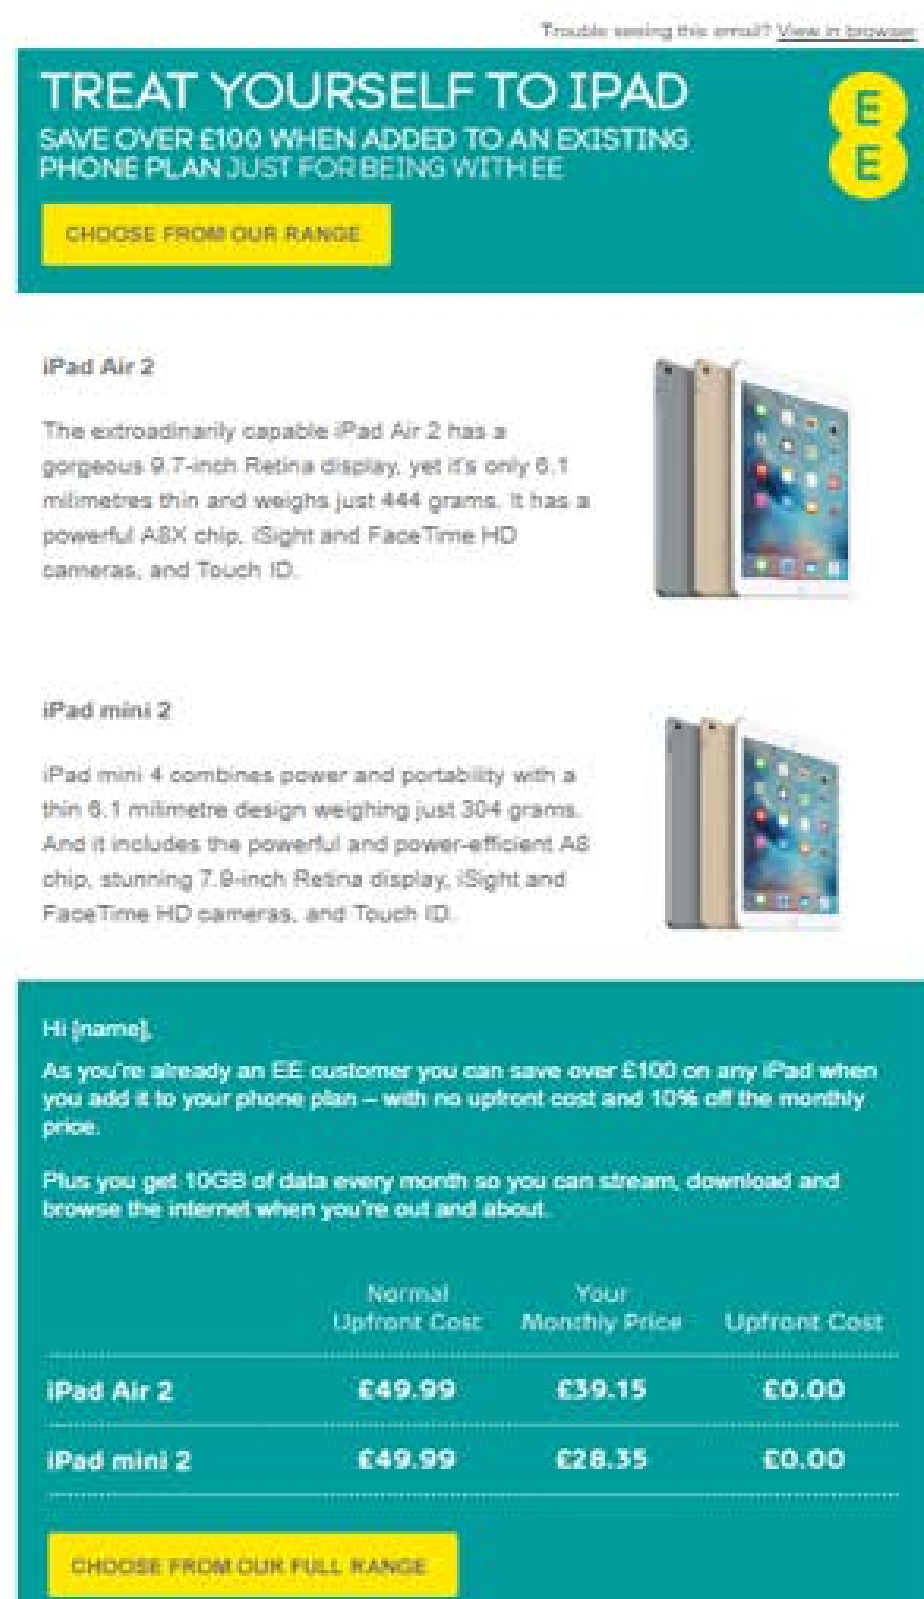

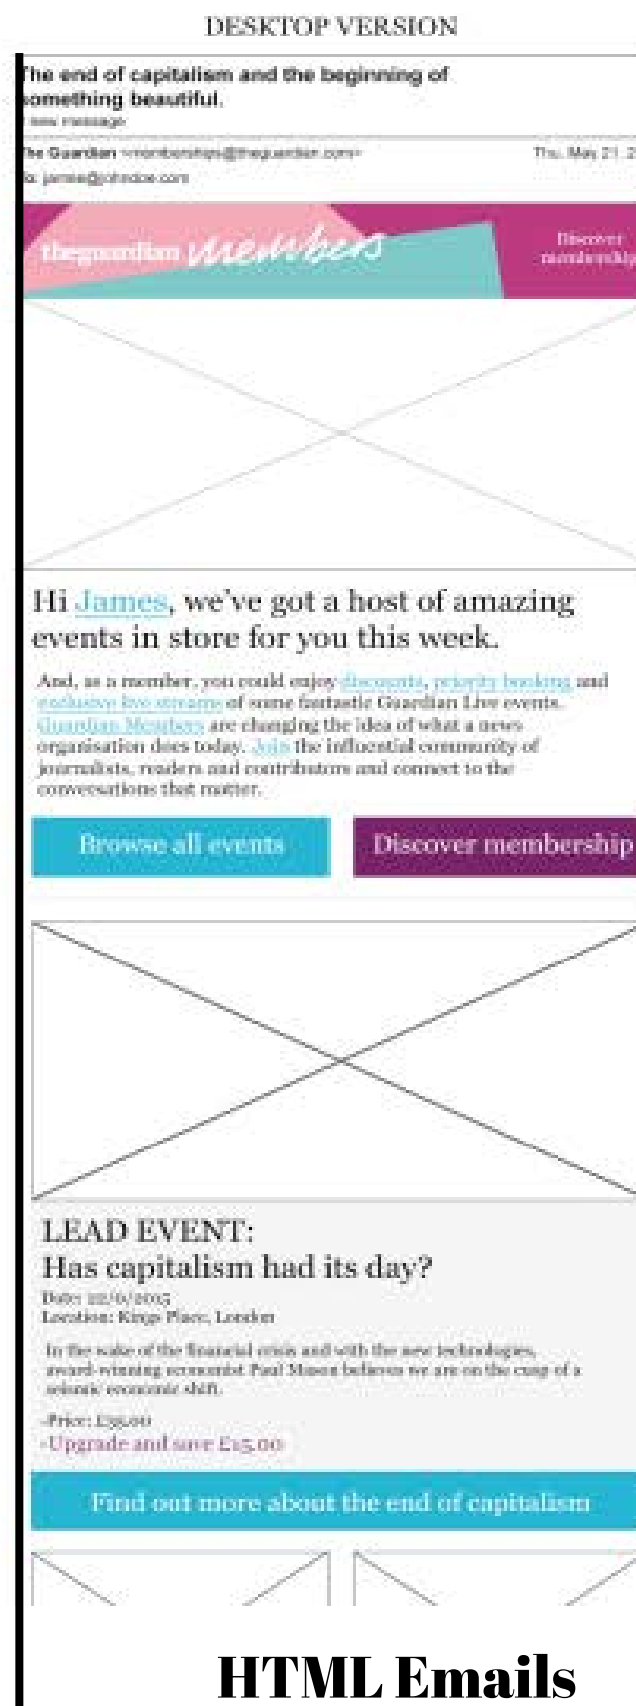

### Design Work

Chain enable is a blockchain advisory my friend Rob Cooke founded and I designed his logo and made his website on wordpress. I have done a few other logos including ones for Addicted Wake and Sumaira Lateef.

## HTML Emails

Html emails campaigns worked on including ones for The Guardian, EE and Red Cloud Technology. The last one required expandable sections so a separate website had to be made with some JS to link them.

### **GreenSock Banners**

I have worked for the Royal Mail and UBS coding a number of different banners for their campaigns. Greensock JS.
